Problem Statement :-

With the increasing popularity of sports like Football, cricket, badminton, etc, the demand for turf grounds has surged. However, users often struggle to find available turfs near their location, especially when local options are fully booked. There is a lack of a centralized platform that provides real time booking options.

Description :-

The Turf booking app will act as an aggregator for sports turf facilities, providing users with a seamless booking experience. Users can search for turfs based on their preferred location, availability, price, etc. Additionally, it will support multiple sports, provide ratings and reviews, booking in advance, and secure online payment options.

Features :-

- 1) Users can check which turfs are available at their preferred time slot.
- 2) City Wide search - Book turfs outside Mumbai, etc.
- 3) Instant Booking & Cancellation
- 4) Price Comparison & Discounts.
- 5) Notification & Reminders.

Conclusion:-

This App aims to streamline the process of finding and reserving sport turfs in Mumbai and Pune, etc. By providing real-time availability, competitive pricing, the app will bridge the gap between players and turf owners.
